

# FAST-resQ

**QUICK DONNING**

**EMERGENCY - POSITIVE PRESSURE FACE MASK**

Designed for use across a range of applications, the FAST-resQ is the perfect emergency breathing apparatus for life threatening situations that require the wearer to remain in their location. Featuring the FAST-mask face mask, with its automatic head harness, the wearer cannot make a mistake in donning the mask. The FAST-mask head harness automatically tensions as soon as a face seal is achieved.

The FAST-resQ is designed to connect to an airline supply system in the wearer's location or to a portable air supply.

FAST-resQ breathing air mask with connecting hose and storage pouch.

# FAST-resQ emergency breathing air mask.

FAST-resQ with automatic inflating and tensioning head harness.

- FAST-resQ is a quick donning face mask system for emergency breathing situations requiring the wearer to stay at their location
- Connect to an airline breathing air supply system or portable air supply
- Utilises Cam Lock's quick donning FAST-mask - in under 5 seconds!
- Only when a face seal is achieved does the head harness automatically tension
- Donning the FAST-resQ is so simple the wearer cannot make a mistake
- Automatic mask fit and tensioning makes FAST-resQ ideal for unconscious casualties
